

Ministry of Infrastructure
and Water Management

Distance based road taxation in the Netherlands

For all passenger cars and vans

Note: due to upcoming elections,
this project is currently on hold

Niels Achterberg, senior policy advisor

This is not a toll

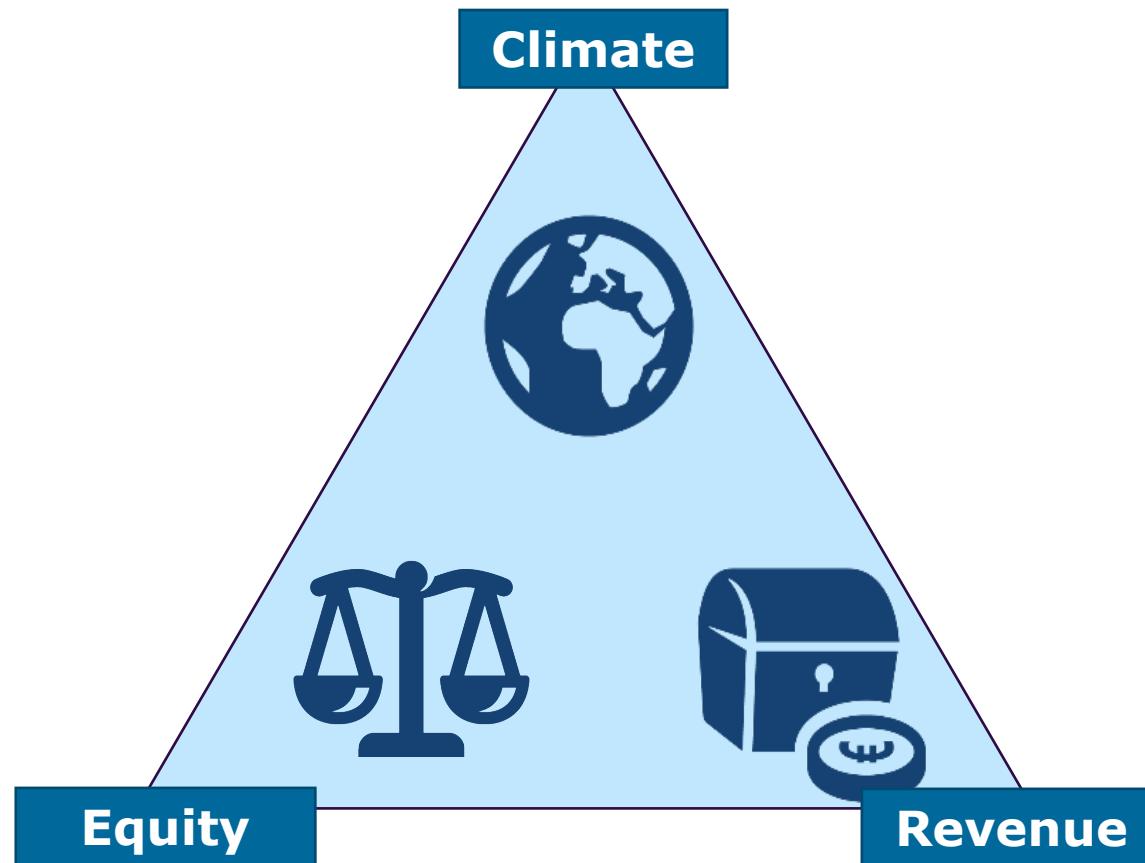

- > Conversion of the annual motor vehicles tax into a distance based tax:
 - \$ 560 average annual tax
 - 8.000 average annual mileage
 - \$ 0,12/mile break-even tax rate
- > Effects:
 - 10% lower annual mileage
 - 5-15% less CO₂-emissions

Ceci n'est pas une pipe.

Trade-off in goals

Registration of kilometres driven

Use of...		KISS		Points of concern	
	Existing Odometer		Low cost		Kms driven abroad
	Existing tax system		Low privacy infringements		Compliance
	Existing mileage registration system		Speedy implementation
